Practical Exam - PRN292 - 03/03/2021

Build a **Windows Forms App (.Net)** application that allows callers to modify the table _____ of the database _____.

1. This program will allow the users to execute the following commands:

    *   Inserts a new record into the table _____.
    *   Updates an existing record in the table _____.
    *   Deletes an existing record from the table _____.
    *   Displays the current list of _____ using a ListView or DataGridView.
    *   Shows these options to the user.
    *   Quits the program.

2. All data must be validated. Otherwise, an error message will be displayed.

Note:

*   Test time: **80** minutes (from _____ to _____).
*   Submit to the lecturer via email: phongvt12@fpt.edu.vn
